

Music Doesn't Soothe This Savage Beast

JERRY R. FARRAR
Heads CARE Unit Here

Chairmen Named for CARE Unit

Jerry R. Farrar, 3560 Del Amo Blvd., has just accepted the post of CARE chairman for the Torrance-Redondo Beach-Downey area, according to Edward J. Flynn, western director of the Cooperative for American Relief Insurance Agency CARE.

Associated with Connecticut Mutual Life Insurance Co., Farrar is a graduate of the Life Insurance Marketing Institute and Purdue University. He is a member of the Life Underwriters Association of Los Angeles. In 1965 Farrar qualified for membership in the Million Dollar Round Table by selling \$1 million in new life insurance.

CARE WAS organized 20 years ago to provide food and programs of education, self-help, and health to needy people in emerging countries around the world.

"I was 'sold' on CARE when I first became aware of its humanitarian work," Farrar said, "and I hope to acquaint the people who live in this area with CARE's programs and goals."

A BRILLIANT tennis player and former all-conference end in semi-pro football, Farrar worked with the Amateur Athletic Union and the U. S. Department of State on cultural and athletic exchanges before joining Connecticut Mutual. He is a member of the Junior Chamber of Commerce and has served as CARE director for Orange County.

Farrar is married and has three children.

Club Names Joe Huston President

Joe Huston was installed as president of the Torrance Toastmasters Club 695 at a family night gathering held last week. Governor Al DuFault of District 51 served as installing officer.

Other new officers include Gil Roxy, educational vice president; Guy Walker, administrative vice president; Art Orrell, secretary; Ray Liles, treasurer, and Jim Hagaman, sergeant-at-arms.

Outgoing president Dennis Bean won top honors during the speaking contest by walking off with the formal speaker's trophy. He also won the "Bone," symbolic of the biggest "boo boo" of the evening.

CHET D'ANNA, retiring administrative vice president, won the attendance award by bringing five members of his family to the meeting. His chief responsibility as vice president was attendance.

Ladies were invited to vote on table topics for the evening. Roger Saunders won the table topics award.

Toastmasters International is a self-help service club which provides its members with opportunities to improve their public speaking through frequent contests and other activities. Membership is open.

Officers will serve for a six-months term.

NOTIFIABLE DISEASES

Reported cases of notifiable diseases from the Torrance area for the week ending July 9 included the following: measles, three cases; gonorrhea, three cases; epilepsy, one case; and scarlet fever, one case.

Music with its charms may soothe the savage beast, but at times music - making can bring out the worst in one of man's most dangerous enemies—the TB germ.

Why music? Because it has been known under certain conditions to furnish the TB organism with a ready means of transportation from an infected person to one or more possible victims. Its favorite mode of travel is via the tiny droplets of moisture that people emit not just when coughing or sneezing, but even when laughing, singing, or otherwise expelling air from their breathing organs.

And so, when people get together to sing or play wind instruments and one of them has TB in its active (communicable) form, that old devil germ has a good chance to hitch a person-to-person ride and set up shop in new territory.

Which is exactly what happened in a couple of recent instances where local epidemics occurred. In an Arkansas boys' school an outbreak of the disease was traced to a member of the school choir who had active tuberculosis, and passed it on to some of his fellow songsters. In another case, a clarinet player in a British military band infected eight other musicians before a doctor diagnosed his active TB and stopped the music.

All this doesn't mean that the campaign to eradicate TB should include music eradication. But it does underline the importance of tuberculosis tests and chest X-rays as detection devices. In the case of children, experts recommend a TB checkup on entering school and on reaching the seventh grade. In between, parents are advised to see that Junior gets a tuberculin test when he goes to the doctor for his annual medical checkup.

All teachers, bus drivers, and other adults who associate with children should have regular TB checkups. As for persons young or old who live or work in close community, the non-musical lesson of the military band speaks for itself.

Directory Prepared For Lomita

Business Directories prepared by the Lomita Chamber of Commerce have been mailed to more than 8,000 residents of Lomita.

The directories contain information about some 350 Lomita business firms obtained through a canvass by the Chamber's Board of Directors, according to Jim Becker, president of the board.

Additional listings included information on important telephone numbers, local churches, service clubs, schools, and city government.

A new street map of the community also is included. Becker, noting the directory was financed by members of the Chamber through the purchase of advertising, urged residents to "read the directory, keep it, and patronize local businesses."

"When you buy a home," Becker added, "your sales tax money stays home to work for you. Only in this way can the city government function properly without additional sources of revenue."

Additional copies of the directory can be obtained free of charge at the Chamber of Commerce office located in the Lomita City Hall, 25331 Narbonne Ave.

Accountant Wins Chapter Trophy

Don Clason, controller of Business Systems, Inc., has been awarded the annual "Van de Kamp" trophy by the National Association of Accountants (NAA).

The NAA award is for the most outstanding manuscript of the year.
